

## Grid Screen MPD - 10 ml. tube format - 10 ml

Primary or secondary, (+/-)-2-Methyl-2,4-pentanediol (MPD) versus pH grid crystallization screen for biological macromolecules

**Product codes:** 

Reference: HR 2215

**Product gallery:** 

## **Product description:**

- SBS microplate footprint & standard well spacing
- Optically clear wells provide for superior crystal imaging
- Well layout makes crystal harvesting easier
- 2 wells with small and large drop well
- Rounded reservoir corners to prevent reservoir (MPD) creep
- Plate Material: Cyclic Olefin
- UV transmissible and low birefringence

Art Robbins Instruments has developed the ideal family of plates for crystallography applications: the Intelli-Plate. All versions of the Intelli-Plate have the SBS microplate footprint and standard well spacing and are ideal for manual or automated processing.

The Intelli-Plate 96-2 LVR (Art Robbins 102-0001-00 Hampton Research HR3-143 and HR3-145) is a Low Volume Reservoir version of the Intelli-Plate 96-2 Original (Art Robbins 102-0011-00 Hampton Research HR3-297 and HR3-299).

Reservoir volume: 100 µl max. Drop well volume: 1 µl max. Plates are made of cyclic olefin.

UV transmissible and low birefringence.
