Product description:

Container for the transport of samples, made of polycarbonate and fully autoclavable.

The cover is equipped with an airtight seal in silicone, so as to ensure a high standard of safety, even in case of accidental spillage of the fluid contained inside, and is provided with n°4 hooks that prevent the opening of the container in the event of a fall.

Full stainless steel handle and adapter to use with instructions.
The symbol of biohazard printed on the cover.

Dimensions: 330 x 175 x 180mm

Cf. 1 piece

Product features:

CNT - AUTOCLAVABLE: you
CNT - TYPE: container transport
CNT - CAPACITY MAX: 50 tubes
THE CNT MATERIAL: polycarbonate
CNT - FORM: rectangular
CNT - OPENING: with safety hooks
CNT - COVER: included
CNT - COMPATIBILITY: tubes Ø12-16mm
CNT - COMPATIBILITY: containers organic
CNT - DIMENSIONS: 330x175x180mm
CNT - COMPLIANCE: EC
CNT - ACCESSORIES INCLUDED: cover
CNT - OPTIONAL ACCESSORIES: support for containers of biological
CNT - SUITABLE FOR: transport
CNT - COMPLETE: cover
CNT - COMPLETE: handle
