

Adhesive tape with indicator of danger

Cf. 6 pcs - in rolls

Product codes:

Reference: 64 881 5811

Product gallery:

Product description:

Adhesive tapes, particularly suitable for signal a possible danger. Can be used on any object in plastic, glass, metal, Teflon® and cardboard.

On the tape there is printed in yellow with the pictogram of the generic hazard (conf. UNI 7545/1-10) and there is a writing area to indicate the type of danger or warning. Easily removable without leaving any particular residue.
