Product description:

A complete line of containers for needle waste, sharp pungent and hospital waste made of plastic material eco-friendly (polypropylene copolymer coloured compliant with the REACH legislation is free from Cadmium and other heavy metals). They resist fluids and solvents and completely disposable in the incinerator without the release of harmful gases. The whole line is designed to resist puncture by needles and cannulae and the main cause of accidents among hospital staff. The containers conform to the International and European standards applicable (compliant with Standard EN ISO 23907). According to the type of the container they are in possession of Quality certification NF302 according to the Standard NF X 30-511 comply with the Rules of ADR certificates for A specific certificate Kitemark® according to ISO 23907 FDA approved. Autoclavable up to 134 °C for 18 min. Six sizes of containers to form a square with the rotating lid that allows for easy maneuverability for the opening of the safe with one hand, and a closure which is simple and practical snap-on. Indication of the maximum filling level.

Product features:

CNT - AUTOCLAVABLE: you
CNT - TYPE: container to special waste
CNT - CAPACITY MAX: 6L
THE CNT MATERIAL: polypropylene

CNT - FORM: quadra
CNT - OPENING: swivel
CNT - CLOSING: snap-on
CNT - COVER: included
CNT - CONTROL: ind. max fill level
CNT - SAFETY DEVICES: -
CNT - DIMENSIONS: 210x210x200
CNT - COMPLIANCE: EN ISO 23907
CNT - ACCESSORIES INCLUDED: cover
CNT - OPTIONAL ACCESSORIES: -
CNT - MAIN FEATURES: containers special waste square opening and closing simple by 6L
CNT - SUITABLE FOR: transport
CNT - SUITABLE FOR: storage
CNT - RESISTANCE: anti-hole
