Product description:

A complete line of containers for needle waste, sharp pungent and hospital waste made of plastic material eco-friendly (polypropylene copolymer coloured compliant with the REACH legislation is free from Cadmium and other heavy metals). They resist fluids and solvents and completely disposable in the incinerator without the release of harmful gases. The whole line is designed to resist puncture by needles and cannulae and the main cause of accidents among hospital staff. The containers conform to the International and European standards applicable (compliant with Standard EN ISO 23907). According to the type of the container they are in possession of Quality certification NF302 according to the Standard NF X 30-511 comply with the Rules of ADR certificates for A specific certificate Kitemark® according to ISO 23907 FDA approved. Autoclavable up to 134 °C for 18 min. Seven sizes of containers in round shape. Cover with provisional and definitive features of the release mechanism of the needles from insulin with fins, and a non-return valve to prevent accidental leakage of the waste. Models, larger (5-7-12 Lt) are fitted with ergonomic handle. Indication of the maximum level of remplimento.

Product features:

CNT - AUTOCLAVABLE: you

CNT - TYPE: container to special waste

CNT - CAPACITY MAX: 12L

THE CNT MATERIAL: polypropylene

CNT - FORM: circular

CNT - OPENING: -

CNT - CLOSING: provisional and definitive

CNT - COVER: included

CNT - CONTROL: ind. max fill level

CNT - SAFETY DEVICES: release needles backflow prevention

CNT - DIMENSIONS: Ø248x310

CNT - COMPLIANCE: EN ISO 23907

CNT - ACCESSORIES INCLUDED: cover

CNT - OPTIONAL ACCESSORIES: -

CNT - MAIN FEATURES: containers special waste round double locking mechanism simple to 12L

CNT - SUITABLE FOR: transport

CNT - SUITABLE FOR: storage

CNT - RESISTANCE: anti-hole
