Product description:

TUBE HOLDER UNIVERSAL

In polypropylene, autoclavable.

Can be used either dry or in a water bath. The particular design allows lottimale circulation of the liquid to ensure that the tubes attain the same temperature.

Can be stored in the freezer without deforming. They are equipped with a grid of alphanumeric printed in relief on the upper floor that allows easy identification of the samples.

They are easy to assemble and empty can be stacked.

Available in the following colours: white (03) blue (04) yellow (06) and red (10).
