Product description:

Bottles in polyethylene terephthalate (PET) are perfectly transparent for the water sampling. Robust and virtually unbreakable.

With screw cap seal with gasket and security seal. With a self-adhesive label applied.

Available in version pre-filled with Sodium Thiosulphate 20 mg/l for the sampling of water chlorinated to prevent bacterial action during transportation and elfa storage.

Sterile packaging single.

Latex-free and are suitable to be intended for contact with food according to what is prescribed by the regulations

Product features:

FLN - PURITY: latex-free

FLN - NECK: -
