Product description:

Questi puntali sono caratterizzati dalla presenza di una sezione sottile alla punta non smussata e molto flessibile. Questo aiuta ad erogare fino all'ultima quantità di campione dal puntale. Presentano inoltre una parte superiore smussata che rende più semplice l'inserimento di questi puntali su pipette di differenti marche.

Sono in polipropilene, graduati a 2 μ l e 10 μ l.

Autoclavabili.

Packaging rack non sterile
