## Product description:

- Dispense siliconized or plain cover slides
- Platform displays one to six cover slides at a time for 18 and 22 mm slides
- Black platform for slides allows one to see if drops are clear or precipitated
- Available for 12, 18 or 22 mm diameter cover slides for either original (0.22 mm) and thick (0.96 mm)
- Platform displays one to twelve cover slides at a time for 12 mm slides

The Cover Slide Gizmo dispenses siliconized or plain slides for convenient drop building during hanging drop vapor diffusion crystallization. Load the cover slides into the dispenser. Slide the loaded dispenser along the platform and six cover slides are dispensed onto the platform. A black background on the platform makes for easy drop visualization as one builds the drop(s). Use finger or forceps to place the completed cover slides onto the crystallization plate.

Manual operation, no power required. See the Glass Cover Slide Gizmo Dispenser at work at minute 1:06.
