

Intelli-Plate Flat Shelf - 40/cs

Sitting Drop Crystallization

Product codes:

Reference: HR 8172

Product gallery:

Product description:

- SBS microplate footprint & standard well spacing
- Optically clear wells provide for superior crystal imaging
- Well layout makes crystal harvesting easier
- Rounded reservoir corners to prevent reservoir (MPD) creep
- Plate Material: Polystyrene

Art Robbins Instruments has developed the ideal family of plates for crystallography applications: the Intelli-Plate. All versions of the Intelli-Plate have the SBS microplate footprint and standard well spacing and are ideal for manual or automated processing.

The Intelli-Plate Flat Shelf (Art Robbins 102-0001-01 Hampton Research HR8-171 and HR8-172) crystallization plate is a flat drop shelf version of the original Intelli-Plate.

Reservoir volume: 300 μ l max.

No drop well.

Plates are made of polystyrene.

The plates can be sealed using Crystal Clear Sealing Film (HR3-609), 3 inch wide Crystal Clear Sealing Tape (HR4-506) or ClearSeal Film™ (HR4-521).
